

MASTERPIECE RESEARCH UNIT NEW LINE QUOTING

When submitting New Line Quotes to the Research Unit, your Marketing Manger or Underwriter, please use the newly revised “New Line Quote Submission Form” posted to this website. Completion of this form will ensure that all appropriate information is submitted in order to provide an accurate and timely quote.

DEC pages and applications do not always include all the necessary information required to accurately quote a policy. These guidelines, broken down by Home/Valuable Articles, Auto and Excess will provide you with an “outline” of all required information. The quote submission form also provides drop-down boxes with standard information.

It is the goal of the Research Unit to process all quotes as quickly as possible and return the information to you promptly and accurately.
