

An accident just put your car in the shop. What kind of rental car will your insurance provide?

A car the same size as the one you drive now.
(like you get with Chubb auto insurance)

The only car the policy can afford.
(like you get with standard auto insurance)

When you get into a covered accident, Chubb knows you will want to rent a car similar in size to the one you drive now. Not some miniaturized version of it.

That's why Chubb *Masterpiece*® Auto Preference® generously provides up to \$3,000 dollars (with no daily limit) for the "loss of use" of your vehicle. You can use this coverage for the reasonable expenses you may incur including: car rental upgrades, hotel accommodations or even airline tickets if the accident occurs 50 miles or more from your home.

That's a far cry from the \$20 per day/30 day limit of standard insurance.

So call your Chubb-appointed independent agent today to ask about switching your auto insurance to where it belongs—with Chubb.

Because maybe it's time you upgraded *your* auto insurance.

You Want The Best? Go With Chubb.
