Dear Mr. and Mrs. Insured:

You've worked years to build financial security for your family. Yet most people don't realize how easily they can be brought into a lawsuit.

Consider the following:

- You skid through an icy intersection and hit another car;
- A guest at your cookout slips on your deck;
- Your child's friend is hurt while playing in your yard;
- Your dog bites your neighbor...again!

Now you're being sued.

The fact is, you don't have to be a millionaire to be sued like one. These are just some of the possible threats to your financial security. As your insurance consultant, we continuously try to evaluate your coverage needs. Our goal is to help make sure your assets are protected in the unfortunate event you suffer a loss. **Therefore, we strongly recommend that you re-evaluate your liability insurance limits periodically to ensure adequate protection from claims.** If a covered loss occurs and you are sued for an amount greater than your existing coverage, your assets such as your home, belongings, investments and future earnings could be at risk.
