Bankers Standard Insurance Company

Home Underwriting Guidelines (New Exposures to Inforce Business)

BANKERS STANDARD INSURANCE COMPANY

No new business with effective dates on or after 3/1/16 is eligible.

We must be able to obtain all necessary rating and underwriting information. All homes are to be inspected to determine the proper replacement cost and to collect underwriting information to properly assess risk.

Value

	<u>Minimum</u>
Dwelling	\$2,000,000 (downstate); \$1,000,000 (upstate)
Condo/Tenant	\$250,000

Prior Approval Required

The following risk characteristics require underwriting approval prior to submission:

- PC 8B and PC 9 risks (PC 10 is ineligible)

- Risks within 3 miles of coastal water

- Risks located outside of Producer's marketing area

- Risks that are for sale

- Attractive nuisances, which include, but are not limited to, unfenced in-ground pools, trampolines, treehouses, skateboard ramps, and bicycle jumps

- Dwellings under construction or major renovation

- Dwellings rented to others

- Dwellings with unusual or unique construction characteristics

- Dwellings built using any type of Exterior Insulation and Finish Systems (EIFS). The following criteria are used to identify dwellings potentially built using EIFS:

 - Year built 1980 or later

 - Frame construction

 - Stucco facing

Insurance to Value

- Dwellings and Other Structures must be insured to 100% of replacement cost

- Replacement cost cannot exceed more than 150% of market value

Prior Insurance

- Required except in cases where there is no need

Prior Losses

- One or more property or liability losses in the past three years is ineligible

Occupancy

- Vacant or unoccupied homes are ineligible.

- Secondary and rental homes are ineligible unless the primary residence is also insured with Bankers

- Standard Insurance Company, or an affiliate

Coastal Risks

- All dwellings in Nassau and Suffolk counties require a 2% Catastrophe Windstorm Deductible except that dwellings within 1 mile of the south shore require a 5% Catastrophe Windstorm Deductible.

Condition

- Home must be in good condition and well maintained. There must be no evidence of prior water damage, mold, or other unrepaired damage. When there is a condition that may practicably be mitigated, appropriate action will be requested.

Home Underwriting Guidelines

BANKERS STANDARD INSURANCE COMPANY

Other Exposures

The following exposures are ineligible:

- Business or farming conducted on premises NOT incidental to the occupancy of the home
- Animals prone to or exhibiting vicious or aggressive tendencies
- Any other condition that significantly increases the risk of bodily harm or property damage

Security

A central station burglar and fire alarm will be required if the primary dwelling amount exceeds \$2,000,000.

A central station burglar and fire alarm will be required if the secondary dwelling amount exceeds \$1,000,000.

Note: In accordance with OFAC regulations, Specially Designated Nationals (SDNs) and Blocked Persons will not be issued a policy.

New York Supplemental Home Underwriting Guidelines

BANKERS STANDARD INSURANCE COMPANY

Prior approval is required for any new risks or additional exposures in the following categories. For each category, an explanation is provided addressing the exposure and additional criteria needed to evaluate the risk.

Protection Class 8B and 9

Risks in these classes are considered “unprotected” by the industry. We maintain that individual underwriting of the exposure may enable us to better evaluate the exposure and allow us to write some of them. The underwriter must evaluate the total loss potential of the risk. To do this, the territorial underwriter must determine if there are any fire related problems associated with the risk and the likelihood of a total loss. We would determine quality of the responding fire department. We may already have this information from other accounts written in the same area/town. We also utilize our in house Residential Appraisers who have expertise in this area. They will assist the underwriter in determining if there is sufficient water supply to make the risk acceptable.

In addition to meeting all other underwriting guidelines, a risk location in Protection Class 8B or 9 must have at least one of the following:

1. An adequate alternate water source that is fire department-approved
An alternate water source (such as underground water tanks) must be fire department-approved to ensure that the water source is useable:
 - accessible year-round
 - near paved road
 - has dry hydrants or suction points that the fire dept can connect with
 - fire department has necessary authority to use the source
2. A sprinkler system with shut-off valves
If the risk is a secondary location, a central station fire alarm is also required.
Central station alarms support the quickest possible fire department response time

Primary residence location is outside the producer’s marketing area

An agent is the company’s first underwriter. Because of their knowledge of local statutes and coverage requirements, a local agent has a better understanding of the Insured’s needs and regulatory requirements. Also, an agent who is not in the same marketing territory may not be aware of local hazards, or local needs, i.e., need for flood insurance.

If the underwriter can determine that the account can be serviced by this agent and the account is eligible under current underwriting guidelines, the risk may be written.

High Profile Applicants

Applicants who receive considerable publicity including, but not limited to, entertainers, athletes, politicians, and/or television, print or media personalities generally have a higher exposure to personal injury liability than is contemplated in the rate structure. To be eligible, these individuals should be conservative and noncontroversial in their actions and statements.

Attractive Nuisances

Exposures including, but not limited to unfenced pools, trampolines, treehouses, skateboard ramps and bicycle jumps, present a higher exposure to personal injury liability claims. To be eligible, proper installation and presence of safety features will be verified.

Builder’s Risk / Dwellings Under Construction or Major Renovation / Dwellings with Unusual Construction Characteristics

Since these exposures create additional hazards, dwellings under construction or those contracting major renovations, require prior discussion with the underwriter. The underwriting process will evaluate the nature of the construction/remodel and review the security measures in place while the work is being done. We also ask for verification of contractor’s liability insurance. On larger exposures, we do have our Residential Appraisers complete a report to review completed phases of the project and to make any recommendations for safety and security measures.

New York Supplemental Home Underwriting Guidelines

BANKERS STANDARD INSURANCE COMPANY

Dwellings Rented to Others

Although rental dwellings are eligible for coverage, owner-occupied single family dwellings are more likely to be better risks than dwellings rented to others. In the case of multiple family dwellings, the extent of rental exposure can make the risk more commercial than personal in nature. The lack of care on the part of tenants, the degree of maintenance and the increased exposure due to multiple kitchen facilities require additional underwriting attention.

An on-site inspection will be done to evaluate that construction and occupancy is in accordance with building codes and that proper insurance coverage is maintained on the dwelling. The underwriter will consider overall maintenance of the dwelling and property as well as look for stability in terms of length of the tenant agreement.

Dwellings for Sale

Dwellings for sale may create additional hazards especially if they have been for sale for an extended length of time or are presently unoccupied. The underwriter will evaluate the occupancy status of the home, the amount of time the house has been for sale and if currently unoccupied or vacant, the condition and safety and security measures in place.

EIFS Construction Materials

Dwellings built after 1980 that have frame construction and Stucco facing may be constructed using EIFS (Exterior Insulation and Finish Systems). A physical inspection will be done to determine if the residence is constructed with true Stucco or with EIFS; and to determine that EIFS materials, if present, have been properly installed, have been maintained and are in good condition, and include proper drainage systems in the walls. Dwellings built with EIFS materials that fail to meet these criteria will be cancelled (if identified on new business within the first 60 days as permitted by law) or non-renewed as permitted by law.

Building Additions and Alterations:	10% of Personal Property Limit (may be increased/decreased)
Loss of Use:	Included
Personal Liability:	Selected Limit
Medical Payments:	\$50,000

* Must have a minimum of \$15,000

General Rules

Eligibility – Residence

A Home policy may be issued:

- A. To an owner-occupant of a dwelling which is used exclusively for private residential purposes and contains not more than 2 families and with not more than 2 boarders or roomers per family.
- B. When a 2 family dwelling is occupied by co-owners, each occupying a separate apartment, the Home policy providing building coverage may be issued to only one of the co-owner occupants of the dwelling. The policy may be endorsed to cover the interest of the other co-owner in the building and for premises liability.
- C. It is permissible to extend the policy without additional premium charge, to cover the interest of a non-occupant joint owner in the building and for premises liability.
- D. For a rental property which is used exclusively for private residential purposes and contains not more than 4 families.

Automatic Debit of Policy Premium

An additional charge of \$10.00 shall be payable each time the funds are not available to cover the automatic debit of policy premium.

Changes

- A. All changes requiring premium adjustments shall be computed on a pro-rata basis, including any premium which was subject to the minimum premium requirement.
- B. No charge will be made and no refunds given when the net change amounts to less than \$3.00
Exception: On direct-billed policies with any installment payments remaining for the current policy period, charges or refunds of less than \$3.00 will be included in the next regularly scheduled installment billing.

Construction Type

In order to qualify as fire resistive, exterior walls, floors and roof must be constructed of fire resistive materials. Fire resistive materials have a rating of two hours or more.

Installments

If the policy is on an Installment Payment Plan, an additional charge of \$10.00 shall be payable with each installment per policy. This charge is waived when the policy premium is automatically debited from a bank account. The availability of installment plans will vary by premium level.

If the Home policy is written in conjunction with another policy, the billing is combined and the installment charge is applied to the entire account.

For any check returned by the bank unpaid, a non-sufficient funds fee of up to \$25.00 may be charged.

General Rules

Package Discount

A package policy is eligible for a discount. A package policy consists of an Auto, Home, and Umbrella under the same policy number. The package discount will be applied to the Home Base Rate.

The discount does not apply to optional endorsement rates.

The package discount is **5 %**.

Policy Period

Policies are written for 12 months.

Rate Revision

A rate revision, meaning any revision of rates applicable to the Home policy, including changes due to reclassification of a community or a district, shall be made in accordance with the following procedures:

- A. The Effective of such revision shall be as announced.
- B. The revision shall apply to any new or renewal policy, or binder having an Effective on or after the Effective of any such revision.
- C. All endorsements, regardless when issued, shall be issued using the same rates in effect at the time of policy issuance or renewal issuance.

Trade or Economic Sanctions Endorsement

Form ALL-21101- Trade or Economic Sanctions Endorsement will be attached to all new business policies and to subsequent renewals.

Whole Dollar Premium

The premium for each exposure shall be rounded to the nearest whole dollar, separately for each coverage provided by the policy. A premium involving \$.50 or more shall be rounded to the next higher whole dollar. This rule applies to all transactions.

General Rules

Mass Merchandising Discount

If the named insured qualifies for a Mass Merchandising Program, a discount, depending on the organization, will be applied to the base rate.

To qualify for the Mass Merchandising Program, the insured must be:

An employee of a sponsoring employers; or

A member of a particular association or organization.

The following groups participate in this program and receive a **5%** discount.

Note: ACE Executive Group receives a 10% discount if payroll deduction applies.

General Rules

Rate and Condition Deviations

Deviated rates and conditions may be used for unusual risks at the request of the insured or the Company. These rates and conditions will comply with state requirements. Deviated rates and conditions may be used for risks with the following characteristics:

- Dwelling limit of \$1,000,000 or greater

- Contents limit of \$1,000,000 or greater

Territory Definitions

The United States Postal Service (USPS) periodically adds, deletes and modifies zip codes and zip code boundaries. As a result, new ZIP codes may not yet be listed below. If this is the case, use the rating territory that corresponds to the ZIP code that formerly applied to the risk. The territory pages will be updated on a regular basis to reflect future ZIP code changes.

B. Optional Windstorm Deductibles (Dwellings)

There are two kinds of Optional Windstorm Deductibles available: "Standard" Windstorm Deductible and "Catastrophe" Windstorm Deductible.

1. Standard Windstorm Deductible

This deductible option provides a higher fixed-dollar deductible which applies to losses caused by windstorm. Deductible amounts of \$1,000, \$2,000 and \$5,000 are available when the dollar amount of the higher standard windstorm deductible selected exceeds the applicable Part I deductible.

Apply the following factors to the Base Premium in the rating sequence.

Newer or Rehabilitated Homes Premium Credit

Dwellings are eligible for a premium credit if they were newly constructed, or if services were completely rehabilitated, in the last nine years. For a rehabilitated home, you must provide us with copies of contracts, bill of sale, or inspection certificates which indicate the date services were replaced. The credit is applied to the Base Premium in the rating sequence.

Renewal Retention Credit (Applies to Dwellings, Tenants and Condominiums)

If we have a Home policy for more than 1 year, a **2%** credit will be applied to the Base Premium in the rating sequence for the primary residence beginning with the first renewal.

Rental Surcharge

For locations rented to others, apply the following surcharge to the Base Premium in the rating sequence for the location.

Territory	Rental Surcharge
3 - 7	15%
All Other	25%

Storm Shutter or Hurricane Resistant Laminated Glass Credit

A **10%** credit will be applied to the base premium of a residence if all exterior openings such as doors, windows, skylights and vents are fully protected with hurricane resistant storm shutters or hurricane resistant laminated glass. To qualify for this credit, the storm shutters or hurricane resistant laminated glass must be designed and properly installed in accordance with the manufacturer's specifications to withstand external pressure and wind-borne debris from a storm with sustained wind speed of at least 110 miles per hour or a storm surge of 8 feet above normal.

Town House or Row House

An eligible two family owner-occupied dwelling attached to a one family dwelling but not separated by a fire wall would be considered 3 individual family units within a fire division. Four 2 family dwellings not separated by a fire wall would be considered 8 individual family units. Apply the following factors to the Base Premium in the rating sequence.

Total # of Individual Family Units Within the Fire Division	FACTORS	
	PC 1-8	PC 8b, 9 & 10
1 & 2	1.00	1.00
3 & 4	1.10	1.15
5 & over	1.25	1.30

Credits & Surcharges

Vacancy Surcharge

There is a 25% surcharge for a location that is vacant more than 30 days. Vacant means a building devoid of personal property or not supplied with the basic utilities reasonably necessary to sustain normal occupancy.

Valuables Credit

A 5% credit will be applied to the Base Rate in the rating sequence if the insured maintains a Valuables policy with a total limit of at least \$100,000 or a jewelry coverage limit of at least \$50,000.

Suburban Rating Rule:

1. Split Protection Class: a primary dwelling located in an ISO protection class 9 may be rated as the same protection class as the primary responding fire department, subject to all of the following:
 - (a) The primary responding fire department must be classified by ISO as protection class 1 - 8.
 - (b) The dwelling is located within 3 miles of the primary responding fire department.
 - (c) The primary responding fire department arrives with at least 4,000 gallons of water, or there is an alternate water source useable year-round by the fire department that can deliver 200 gallons of water per minute continuously for 20 minutes (4,000 gallons).
 - (d) The primary responding fire department has at least 2 pumpers.
 - (e) The dwelling is accessible year-round to the fire department
2. Dwellings located in ISO protection class 9 may be rated as protection class 8 if 1 (b), (c), (d) and (e) are met.

Builders Risk

The Builders Risk endorsement may be added to provide coverage for a residence undergoing new construction or renovations. Renovations may be either:

- A. Minor, resulting in increase in dwelling value less than 10% or \$500,000, whichever is less; or
- B. Major, resulting in increase in dwelling value greater than or equal to 10% or \$500,000, whichever is less, including all new construction.

If the insured resides in the home during renovations, apply the appropriate Builders Risk Charge to the Base Premium.

If the home is vacant or unoccupied during construction or renovations, apply the appropriate Builders Risk Charge to the Base Premium and then apply the Vacancy/Unoccupancy Surcharge to the calculated premium.

BUILDERS RISK CHARGE		VACANCY / UNOCCUPANCY SURCHARGE
Minor	Major	
10% per location	25% per location	25% per location

For Example: Base Premium = \$1,000

$\$1,000 \times 1.25$ (Builders Risk Charge) = $\$1,250 \times 1.25$ (Vacancy/Unoccupancy Surcharge) = \$1,562.50

Therefore the additional premium for the Builders Risk Endorsement is \$562.50 or \$563 if rounding.

NOTE: The residence must be insured for the expected completed value from inception and is not eligible for new home or alarm credits until completion of a final dwelling appraisal.
