

## The Premise Survey

### Protect your valuables from the possibility of loss.

Collecting valuable pieces should not begin and end on the auction room floor. Buying a precious item is just the first step. Making sure it's protected comes next. As a complement to your *Masterpiece*® Valuable Articles policy, Chubb proudly offers a free premise survey to help protect your valuables from the possibility of loss. Our dedicated collector specialists can conduct an inspection of your home, office or storage location and offer:

- Guidance on proper storage and display conditions
- Evaluation of environmental exposures
- Identification of problematic areas
- Fire protection and security recommendations
- Review of valuable items scheduled with Chubb

To arrange a premise survey, please contact your agent or broker.
